Indicators

Strategies

1. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)

The only potential barrier was in the plan collection area. Although several agencies responded and were involved in this process, We would still like to respond and be involved in the planning in the future. We continue to try to get more agencies involved in the plan.

2. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration.

The shared plan process has helped us better understand some of the other agencies priorities and how we can work together to address agency issues and priorities.
