Indicators

Strategies

1. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)

Expected lack of council members' commitment and time to see this work as part of a bigger picture of effectively managing multiple community priorities.

2. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration.

Council members will see the importance of working together so services are not duplicated and how we can make good use of funds by collaborating together to cover costs from other sources.

Report on Indicator Data (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: County-wide agencies will all collaborate to provide comprehensive services to Highland county families and children.
