

Knox County Family and Children First Council Shared Plan for SFYs 17-19 Update for SFY18

Current FCFC Initiatives: Help Me Grow, Dolly Parton’s Imagination Library, Ohio Children’s Trust Fund, Early Childhood Coordinating Committee and its subcommittees, Community Team, Pooled Funding Committee, and System of Care

**Shared
Priorities**

Promote healthy parent/child interaction through parenting education and/or activities which support positive development and school success

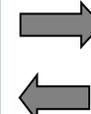

**Shared
Outcomes**

The number of parents/caregivers who have knowledge of age-appropriate child development and develop skills to support their child's learning and development increases.

**Shared
Measurement**

• # of parents/family members who receive parenting training

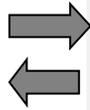

**Mutually Reinforcing
Activities**

- Parenting Education for families who have open cases with Children Services
- Help Me Grow Parenting Education through Home Visiting & Healthy Families America
- Born Learning Campaign
- Conscious Parenting/Conscious Discipline Parent Trainings & Infant/Toddler Trainings (Head Start)
- DD Early Childhood Program/IFSP,RBI,PLAY Project and development team
- UCLA Health Care Institute Training for Health Literacy & Sun Safety Training
- Early Head Start Program/Parents as Teacher
- Parent Project
- Thinking for Change
- Parent Project funded by Mental Health & Recovery
- Active Parenting of Teens
- Knox Health Planning Partnership Resilience Team
- Triple P (Positive Parenting Program—Knox Health Planning Partnership Resilience Team/Head Start)

#

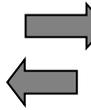

Shared Priorities

Support community wide initiatives to develop a trauma informed community targeting organizations which serve children and their caregivers

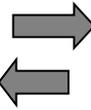

Shared Outcomes

Service providers adopt and apply trauma informed practices

Shared Measurement

- # of trained providers
- # of organizations signing a cooperative agreement to embrace trauma informed practices

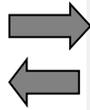

Mutually Reinforcing Activities

- Second Step for pre-school and elementary children funded by Mental Health & Recovery (Freedom Center)
 - Conscious Parenting/Conscious Discipline Parent Trainings & Infant/Toddler Trainings (Head Start)
 - The Village Network Programs: Collaborative Problem Solving & Neurosequential Model of Therapeutics (NMT)
 - Behavioral Healthcare Partners/Head Start partnership for Early Childhood Mental Health (ECMH)
 - Mental Health First Aide (Mental Health & Recovery)
 - Strong Families Safe Communities Grant (Mental Health & Recovery)
 - Ohio's Domestic Violence Network Programs: Trauma Informed Care, Best Practices and Protocols (New Directions)
 - Ohio Alliance to End Sexual Violence: Core Standards for Rape Crisis Programs in Ohio (New Directions)
 - Freedom Center: Trauma informed curricula in treatment programs for Women and Adolescents
 - Freedom Center: Trauma informed content in parenting programs
 - Freedom Center: Knox Addiction Conference--Recovery Matters
- Continued

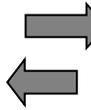

Shared Priorities

Support community wide initiatives to develop a trauma informed community targeting organizations which serve children and their caregivers

Shared Outcomes

Service providers adopt and apply trauma informed practices

Shared Measurement

- # of trained providers
- # of organizations signing a cooperative agreement to embrace trauma informed practices

Mutually Reinforcing Activities Continued

- Freedom Center: PAX Training
 - Behavioral Healthcare Partners: Trauma Informed Care Learning Community
 - Knox County Certified Special Docket Juvenile Drug Court Case Manager funded jointly by United Way and Mental Health & Recovery
 - Knox County Certified Juvenile Special Docket Mental Health Juvenile Court
 - Kid's Mobile Crisis Team for children under the age of 8 (Mental Health & Recovery—this is not part of the Strong Families, Safe Communities grant)
 - ENGAGE practices
 - 211 Pathways
 - Knox Health Planning Partnership Resilience Team
 - Triple P (Positive Parenting Program—Knox Health Planning Partnership Resilience Team/Head Start)
- #

Were there any modifications from last year's plan? Yes No XXX

If yes, please identify the types of changes made by checking the appropriate boxes below:

Priorities

Outcomes

Indicators

Strategies

1. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)
There were no barriers to implementing programs.

2. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration.
Collaboration across the County continues to increase with the implementation of parenting training. The Mental Health & Recovery Board of Licking and Knox Counties provided funding to Knox County Head Start to continue offering the Active Parenting of Teens training.
This plan is closely tied to the efforts of the Knox County Planning Partnership Resilience Team. The membership of the Planning Partnership extends beyond the Knox County Full Council. As such, the county efforts compliment and extend beyond Council.
Through the work of the Knox County Planning Partnership Resilience Team with Knox County Head Start as the lead organization in this effort, the County received a five-year grant of \$602,000 from the Ariel Foundation to offer Triple P (Positive Parenting Program) county-wide, thus increasing our efforts to bring quality parenting programs to the County. County agencies are providing matching funds are required by the grant.

Report on Indicator Data (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: Young children access opportunities to develop resilience strategies.

Shared Measurement Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
# of children receiving child-centered programs focused on building resiliency	Data: 704 (454 Second Step; 250 Good Behavior Game) Year of Data: SFY16	Data: 1060 (284 Second Step; 308 Good Behavior Game; 366 Too Good for Drugs; 102 Word of Mouth) Year of Data: SFY17	+
# of new elementary schools in the county participating in the Good Behavior Game	Data: 3 Year of Data: SFY16	Data: 4 Year of Data: SFY17	+
# of classrooms in the county participating in the Good Behavior Game	Data: 12 Year of Data: SFY16	Data: 14 New Classrooms Year of Data: SFY17	+
# of preschool and elementary schools in the county participating in Second Step	Data: 6 Year of Data: SFY16	Data: 14 Year of Data: SFY17	+

1. List the data source(s) for the indicator(s):

Freedom Center (Second Step: Served 284 students new to the program in 28 classrooms in 2 elementary schools—one in each of 2 different school districts, and 12 Preschools—Mount Vernon ESC (4 classrooms), New Hope EEC (4), Centerburg ESC (4), Centerburg HS (1), Northgate (2), Fredericktown ESC (1), Fredericktown HS (1), KCCC (2), Danville HS (1), Gambier HS (2), YMCA (2) and YMCA YABCs (1). Freedom Center (Good Behavior Game: Served approximately 308 students new to the program in 4 pre/elementary schools—Danville Elementary, Twin Oak Elementary, Wiggin Street Elementary, YMCA—in 14 classrooms of average size of 22 students each. Last August 27 teachers were trained.)
Freedom Center (Too Good for Drugs: Served 366 students)
Freedom Center (Word of Mouth: Served 102 students)

2. Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):

Second Step and Good Behavior Game data represent new students or new classrooms. The Freedom Center also provided 8 hours of PAX training to 28 educators.

Report on Indicator Data (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: The number of parents/caregivers who have knowledge of age-appropriate child development to support their child’s learning and development increases.

Shared Measurement Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
# of parents/family members who receive parenting training	Data: 450 (280 parents and community members were trained thru HS; 75 FC parents; 95 ESC There may be overlap if parents attended multiple trainings.) Year of Data: SFY16	Data: 419 (209 parents and community members were trained thru HS; 57 FC/TVN; 27 ND; 5 PCO; 26 MVCS; 95 ESC There may be overlap if parents attended multiple trainings.) Year of Data: SFY17	-

1. List the data source(s) for the indicator(s):

Knox County Head Start (21 Head Start Parent Trainings were offered to 209 community parents/caregivers from 7/1/2016 to 6/30/17: 149 received Conscious Discipline (CD), infant/toddler and Healthy Relationships parent training; 16 UCLA Health Institute; and 44 UCLA Sun Safety Training. (There may be overlap if the parent attended multiple trainings.)
 New Directions (27 trained through Stewards of Children)
 The Village Network and Freedom Center (Together they served 57 parents through the Parent Project.)
 Pathways of Central Ohio (5 parents were trained: 3 First Five (Active Parenting), 2 Active Parenting 4th Edition)
 Mount Vernon City Schools (6 parents participated in Hidden in Plain Sight, 20 in Child Character and Leadership Development)
 Help Me Grow and Early Intervention did not offer parent trainings in FY17.
 Knox County Board of Developmental Disabilities did not offer parent trainings in FY17.
 United Way of Knox County (No parent trainings were funded through United Way)
 The Juvenile Court did not provide direct training of parents.
 Educational Service Center (Provided 2 nights of parent trainings and 3 at New Hope for a total approximately 95 parents)

2. Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):

Numbers of parents served is down a bit due to the fact that funding through the Ohio Children's Trust Fund ended on June 30, 2016. These funds supported Active Parenting training. In fiscal year 2016, 33 parent were trained with an additional 9 parents served through the online Active Parenting training.

Through the work of the Knox County Planning Partnership Resilience Team with Knox County Head Start as the lead organization in this effort, the County received a five-year grant of \$602,000 from the Ariel Foundation to offer Triple P (Positive Parenting Program) county-wide. County agencies are providing matching funds are required by the grant.

The Triple P (Positive Parenting Program) is a multilevel suite of parenting and family support strategies for families with children from age 1 to 16. It is an evidence based program designed to prevent social, emotional, behavioral, and developmental problems in children by enhancing their parents' knowledge, skills, and confidence. The Parent Support Initiative Coordinator, tasked with implementing Triple P in Knox County, was hired in February of 2017. A training cohort to accredit the first 20 community professionals and paraprofessionals to provide Triple P to parents will take place July 11-13, 2017 with a goal to have 400 parents receive training or consultation by June 30, 2018.

Report on Indicator Data (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: Service providers adopt and apply trauma informed practices.

Shared Measurement Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
# of Agencies that sign an MOU Collaborative Agreement	Data: 0 Year of Data: SFY16	Data: 0 Year of Data: SFY17	NC
# of Trainings/Workshops offered to county professionals	Data: 4 Year of Data: SFY16	Data: 5 Year of Data: SFY17	+

- List the data source(s) for the indicator(s):
 Sponsored trainings offered to county professionals:
 Freedom Center (Knox Addiction Conference and PAX Training)
 Knox County Planning Partnership (KCPP) Resilience Team (3 viewings with discussion of the film Resilience)
- Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):
 At this time, the County efforts are not focused on creating Memorandum of Agreement (MOU) Collaborative Agreements, but rather efforts are focused on establishing baseline data related to trauma-informed care for the county.

The Knox County Planning Partnership (KCPP) Resilience Team is the lead organization for this effort. Through their work, a number of Knox County agencies are actively engaged in a variety of steps toward becoming more trauma-informed. One initiative has been the administration of the ARTIC (Attitudes Regarding Trauma Informed Care) Survey. Seven Knox County organizations administered this survey to their staff during spring 2017 with 238 staff in these agencies completing the survey. This survey enables the individual organizations and the county to establish baseline data related to trauma-informed care. The survey assesses staff attitudes toward clients/students and the extent to which staff are likely to respond to their clients/students based on an understanding of trauma and its impact. The survey also assesses the extent to which staff perceive that their work environment is trauma-informed, supporting staff who typically experience secondary trauma as part of their work. We anticipate that the ARTIC Survey can be administered periodically in

the future and serve as a means of tracking progress within agencies and countywide toward becoming more trauma-informed, both within organizations and in relation to serving consumers and students.

Data from the ARTIC surveys will be analyzed to assess the extent to which trauma-informed practices are present throughout the county. Each agency will also receive a summary report of their data. We expect to use the summary data to assess training or workforce development needs for staff and/or organizations. It may also be used to identify and implement steps that would engage additional Knox County agencies or which support agencies in developing internal plans for strengthening their trauma-informed practices. Organizations which participated in the ARTIC Survey administration were Knox Board of Developmental Disabilities, Knox County Head Start, Knox County Health Department, Behavioral Healthcare Partners, The Main Place, Freedom Center, and New Directions Domestic Abuse Shelter.

The film Resilience was viewed by approximately 90 community members at three meetings—the Resilience Team meeting, Knox Health Planning Partnership meeting, and a community meeting sponsored by Knox Addiction Conference. Each viewing was followed by a discussion and/or panel.

In addition, the Freedom Center provided 8 hours of PAX training to 28 educators in an effort to reduce stress in the classroom and enhance social skills and academic achievement.
