1. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)
No barriers were identified at this time.

2. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration.

The Miami County Family & Children First Council uses the Team Liaison approach for Service Coordination. This method is designed so that the staff who work most closely with the youth and families will be the ones to provide supports in the process. They are better able to empower the family by supporting them in assessing their strengths and needs. They also know the system and how to use it to build on the youth and families strength. They also connect the appropriate resources that best match the needs to lead to the best outcome.

Report on Indicator Data (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: **Reduce the number of out of home placements.**

| Shared Measurement Indicator(s): | Baseline Data | Current Year Data | Direction of Change (+, -, NC) |
|--|---------------------------------|---------------------------------|--------------------------------|
| Total # of out of home placements (Juvenile Court/CSB) | Data: 57 Year of Data: FY 16 | Data: 83 Year of Data: FY 17 | + |
| Total # of out of home placements (Service Coordination) | Data: 13 Year of Data: FY 16 | Data: 3 Year of Data: FY 17 | - |
| | Data: Year of Data: | Data: Year of Data: | |

3. List the data source(s) for the indicator(s):

The Miami County Juvenile Court, the Miami County Children’s Services Board and the Miami County FCFC Service Coordination.

4. Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):

There has been an overall increase of the number of youth in placement for various reasons but one of the main influences on the families in Miami County is the drug/heroine epidemic.
